New Regional Clinic

Express Medicals has recently opened a full-time regional clinic near Stoke-on-Trent. The clinic, easily accessible from the motorway (M6), offers plenty of free parking for clients' convenience and will become the main base for Express Medicals' services in the Midlands.

It offers a wide range of occupational health and screening services to complement existing clinics in the region (including Doncaster, Manchester, Derby and Birmingham). Same-day appointments will always be available for core services and on-site services will be freely available, too. Clients will find that Stoke is a valuable addition to Express Medicals' full-time medical centre in London and its other satellite clinics in Ashford (Kent), Birmingham, Bristol, Derby, Doncaster, Glasgow, Manchester, Newcastle and Southampton.

For more information, or to book an appointment, please call: 020 7394 1788 or visit the website at: www.expressmedicals.co.uk
